

Whole Crude Wild Oregano, 100% raw

OregaMax™

Healthy immune system support*

Highly digestible and 100% raw

OregaMax is the original wild oregano supplement. This is truly wild, full spectrum high-mountain oregano, the same ancient substance known as the hyssop of the Bible. Made from wild oregano found in the remote Mediterranean mountains, it is a top source of natural calcium, zinc, copper, and phosphorous. It is also an exceedingly high source of vitamin K. The plant grows out of a white, rocky, mineral-rich soil and is the ideal formula for anyone desiring strong herbal support, as well as bone health.* OregaMax is a village formula that has been used for thousands of years. The wild oregano in OregaMax provides a rich array of highly desirable flavonoids.*

OregaMax also contains *Rhus coriaria*, a mountain berry containing a wealthy assortment of effective antioxidant activity. Rhus is rich in anthocyanins and water soluble tannins. The anthocyanins contain the following flavonoids: malic, tannic, and gallic acids. Rhus also provides naturally occurring vitamin C.

Organic garlic and onion are added to enhance the herbal powers. Onions, like garlic, are members of the allium family, and both are loaded with powerful sulfur-containing compounds, which act synergistically with the wild oregano. Onions were so highly regarded by the Egyptians that they were used as currency to pay the workers who built the pyramids. They were also placed in the tombs of kings, such as Tutankhamen.

Garlic is rich in a variety of powerful sulfur-containing compounds, including thiosulfinates and sulfoxides. In addition, garlic is an excellent source of selenium.

OregaMax is the truly raw, whole food form of wild oregano, ideal for daily use and for children and pets. Also, when taking OregaMax you get 100% natural-source minerals, bioflavonoids, and vitamins. Plant-based sources of minerals are growing in popularity among highly informed users of supplements. While most people take two or more capsules daily, you can empty the capsules right onto your food. It's so flavorful that two or three capsules sprinkled over any meal create an exotic treat. This product is a source of highly concentrated, wild-crafted, plant-based organic nutrients.*
