

Oil of Wild Oregano P73  
**OregaUltra**™

**Healthy immune & pain support\***

**Wild, raw 84%-plus carvacrol**

OregaUltra is the supreme truly wild oregano oil supplement. It's the top of the line, the maximum of all maximums, most extreme of all extremes, from the mountaintops of the Turkish remote wilderness. It is from only specialized mountain pockets at the highest levels, 10,000 to 12,000 feet above sea level.

Nothing can match it in power and potency—that's why it's called Ultra. And ultra means one thing, ultra-potent to the extreme. OregaUltra is nature's most potent oregano oil, because of its truly wild-source, 84%-plus carvacrol. Cheaper imitations are made by adding synthetic carvacrol or an adulterant. This never occurs with OregaUltra, since the carvacrol is strictly from nature: 100% wild-source. Carvacrol is a key active ingredient. Higher levels give the oregano oil exceptional power, both as an antioxidant and antiseptic.

There are 22 other active ingredients in OregaUltra, so there is the synergy of the whole. Carvacrol is a potent natural antihistamine. As well, it is one of nature's most powerful antiseptics, demonstrated by hundreds of scientific studies. There is great power in carvacrol-rich, wild oregano oil, but only if it is natural and wild-source.

84% to 85% is the maximum level of carvacrol found in nature. Oregano oils claiming levels of 88% and higher are suspect and undoubtedly adulterated. Even if it is claimed as Mediterranean source and wild it could still be adulterated. This is usually done through the addition of Chinese-sourced, synthetic and potentially toxic carvacrol.

Another corruption that occurs is farm-raised oregano. Here, cultivars are selected, even cloned, from high carvacrol varieties. It is never natural but is, rather,

artificially selected. Regardless, oregano never grows naturally on farms or dirt. Rather, it thrives exclusively in rocky mountain areas, growing right out of the rock with minimal to no soil. That's why it is so hardy and powerful to the extreme, and that's why OregaUltra, truly wild source, never adulterated, is your perfect choice as the most powerful oregano oil supplement known.

**How to use OregaUltra:** Use OregaUltra as drops under the tongue or in juice/water or with meals, and also topically, rubbed on the skin or applied to the gums and teeth. It's ideal for tough, stubborn conditions. May be used in atomizers, diffusers, and vaporizers. Clean the air in an amazing way.
